Description

Appreciate the perception The essence of creating the visual side of branding is crystallizing thoughts and intentions hidden under the logo, typography and color. In Mediavide we can see the individual nature of the project and illustrate it. We believe that this ability is the basis for building a consistent and trustful image, which is the foundation of development of every brand. Using modern tools and comprehensive services we create emotions and portray strengths in a way that provides the highest quality and attractiveness of the media.

We design and execute: visual identification systems / logos / brand books / business stationery / business cards / leaflets / portfolio / folders / advertising / printing materials / outdoor.

We design and implement: websites and web applications / e-commerce systems / online shopping / social media / mobile applications / usability / web usability / programming / audits of web applications / systems integration.

Let us express yourself Our work is widely extends beyond the enclosure of your project in a few words, templates and logos. We work in order to provide comprehensive services and create a broad package of capabilities combined in a single concept. Photo sessions are an obvious part of such project. In the studio with high quality equipment we take photos to websites and working on large format projects.

We can make: packshot / sessions for graphic design / arranged sessions for the campaign / employee photos / offices photos / photo reports from events.
