

Florin LIANU

Managing partner

REGICONIA INTERNATIONAL

<http://regiconia.ro/>

Bilateral Meetings

- November 13, 2015 (11:00 am - 01:00 pm)

Description

We are active in the sector of software, web and business applications. We developed an e-commerce platform which provides innovative online services, helping the fast internationalization of small and medium manufacturers. The platform provides a series of important advantages, such: easy registration, five international languages usage and many other. We are looking for consulting or IT companies, interested in common exploitation of the e-commerce platform, based on joint venture agreement. The partner must find production companies which need internationalization services.
