## Bilateral Meetings

- November 13, 2015 (01:30 pm - 03:30 pm)
- November 13, 2015 (11:00 am - 01:00 pm)

### Description

Although the market recently we have extensive experience in designing graphics. We help our customers capture the vision and change them on a solid and consistent aesthetic designs. We believe that our work is a mission which resulted in the success of our customers. We design for print, Web or mobile applications. We create graphical identification systems, from an idea by the logo on the prints, networks and large projects. We also design websites and web applications / e-commerce systems / online shopping / social media / mobile applications / usability / web usability / programming / audits of web applications / systems integration. We try to work with original and outside the box. We like when we put the challenge.
